1,030 students participated in the survey.

**PREVALENCE IN A UNIVERSITY CONTEXT**

**Sexual harassment**
- 17.3% since starting university
- 11.2% in the past 12 months

**Sexual assault**
- 4.2% since starting university
- 1.0%* in the past 12 months

**Reporting and Support Seeking**

**Formal complaints made to the university**
- 3.6%* of students who were sexually harassed made a formal complaint

**Seeking support from the university**
- 14.0% of students who were sexually harassed sought support or assistance

**Knowledge of university support and reporting channels**

**Female**
- 12.9%
- 0.7%*

**Male**
- 3.9%*
- Male**
- Differently-described gender**
- 31.5%

**Location**
- General campus areas: 40.3%
- University library: 21.7%
- University lecture theatres, computer labs: 20.5%

**Perpetrator**
- 50.7% knew some or all of the perpetrators involved

**Flinders University**

**General campus areas**
- 50.7%

**University library**
- 49.1%

**University lecture theatres, computer labs**
- 36.9%

**1,030 students participated in the survey**

Relative standard errors (RSE) were calculated for survey estimates. If the RSE was between 25% and 50% an * appears next to the estimate that indicates caution should be used with the associated estimate. If the RSE was above 50% an ** appears meaning the estimate is unreliable and not reportable. Differently-described gender includes students whose gender identity was not classified as female or male. Gender identity was derived using the 'two-step method' of cross-classifying responses to sex assigned at birth and current gender. Context of most impactful incident. Students who had been sexually harassed in a university context were asked questions about the context of the most impactful (or significant) incident they had experienced. This incident was self-identified by the student.
