

Graduate Diploma in Biotechnology

This **suggested** study plan must be read in conjunction with the course rule at:

www.flinders.edu.au/courses/rules/postgrad/gdpbt

To qualify for the Graduate Diploma in Biotechnology, a student must complete 36 units with a grade of P or NGP or better in each topic, according to the program of study below.

Year 1 topics

<p>Non-Semester 1:</p> <p>BTEC8001 BioBusiness</p> <p>Semester 1:</p> <p>BIOL8004 DNA to Genome GE BTEC8002 Molecular Biotechnology</p>	<p>Semester 2:</p> <p>BTEC8003 Legal, Ethical and Social Aspects of Bioscience GE BIOL8005 Protein to Proteome GE BTEC9006 Professional Skills for Biotechnology BTEC8007 Protein Biotechnology</p>
---	--

18 units of core topics may be replaced with elective topics from the list below:

Semester 1:

[BTEC9008](#) Industrial and Pharmaceutical Biotechnology GE
[BTEC9010](#) Medical Biotechnology GE
[BTEC9011](#) Plant Science to Food Biotechnology GE
[BTEC9012](#) Environmental Biotechnology GE

Semester 2:

[BIOL9013](#) Integrating Molecular Biosciences GE[^]

[^]Enrolment into this topic requires the permission of the Topic Coordinator.

This document is accurate as of November 2018.
