The Flinders University campus is a great place to study because it is away from the hustle and bustle of the city with a quiet and peaceful environment. The proximity of each campus and facilities makes it easy to go for a walk to get one from end to the other. In my first year, I lived on campus at Flinders Living. This was a great experience because it's a 5 minute walk to class, the library and the Flinders Gym. The environment is also safe for students to access even late at night.

The environment in Adelaide and Australia is very good. The style of living here is very different than Hong Kong. It's totally opposite! In HK it's very busy and crowded but here you can be very relaxed about your life. The beaches are very nice for me, I always go to the beach with my friends. I sometimes like to hang around the city with friends, it feels really safe here. Friends and family have made my life here great – I've made so many friends over here.
